INTRODUCING IX TASTE

DELICIOUS CLEAN DRINKING WATER

Better tasting water, simply and sustainably. Designed for drinking-water installations that demand fresh tasting, clean and odourless water.

INTRODUCING IX TASTE

The IX Taste has been engineered to remove sediment and unwanted odours and deliver fresh-tasting drinking water. Perfect for self-service water stations or just ensuring that quality and attention to detail extend to even your tap water.

SPEC SHEET

MODEL	CAPACITY*	DIMENSIONS (mm)
Small	43,681 Litres	317 High X 167 Dia
Medium	94,864 Litres	406 High X 167 Dia
Large	114,844 Litres	580 High X 167 Dia

* This capacity is with bypass settings 0.

- Working pressure 1.5 - 6 Bar**
- Water inlet temperature 4 - 30°C
- Only connect to a cold Food-Safe water supply
- Flowrate - 4 litres per minute

** A pressure-reducing valve is recommended if the working pressure is greater than 3.5 bar.

THE IX HEAD

The bypass on the iX Head when attached to the iX Taste filter, must be set to 0 to ensure no hard water is dialled back into the water supply.

Features a 5-stage filtration process that includes: Prefiltration, Silver Activated Carbon, sediment reduction, Media specific water treatment, Fine filtration.

Operates in a vertical or horizontal position

Head connections inlet / outlet
3/8th push-fit

The iX Head has a built in easy to use flush valve and quick to change variable bypass.

Easy and quick change of the refill

WE'RE REGENERATING THE MANGROVES

NATURE'S **CARBON** FILTER

The mangroves are vital to tropical ecosystems and serve as nature's coastal carbon sinks. Between the land and ocean, they protect beaches, enrich marine life and capture 5-10 times more carbon than terrestrial forests. We're helping rebuild mangroves throughout Asia and Latin America with our commitment with Tree App.

ONE TREE **PLANTED** FOR EVERY FILTER RECYCLED

Support the mission and help the planet. For each filter you purchase, we're planting a tree with One Tree Planted – making a difference, one filter at a time.

WE'RE **FIXING** WATER

OUR INDUSTRY LEADING UK RECYCLING PROGRAMME

We are now able to recycle and re-purpose ALL types of plastic and aluminium water filters using our newly operational recycling facility in the United Kingdom.

RECYCLING & REGENERATION

We've optimised every component and stage of the water filtration process. An unprecedented 98% of an IX filter can be re-used or recycled – including the resins which are infinitely rechargeable.

We have created robust processes to get used water filters, including other manufacturer's filters, back to us for reprocessing and to give the plastic and resin a new life as a brand new product
